About JCI Transportation

JCI was founded in 1874 in Philadelphia, PA. Our company was originally conceived as a horse and wagon delivery service, moving printing paper and paper products between various printing houses and distributors in the city.

Today we run a fleet of Volvo and Mack tractors, all late models, and air ride units less than two years old. Our fleet of trucks includes tandem axle sleepers, tandem axle day cabs, single axle day cabs, straight trucks with and without lift gates, 53’ reefer trailers, dry vans, flat beds and roll offs.

Our Drivers are all CDL-A certified and together they average more than 20 years of experience.
